

Make a Fingerprint Life Cycle

Materials: *Fingerprint Life Cycle* printable from www.scholastic.com/lfo, washable paint or fingerpaint, crayons

- **This activity** is great for practice in following directions, building fine motor skills, and reinforcing the butterfly life cycle—and it makes an adorable piece of artwork to boot!
- **Pass out** the printables and set out paints. Review the directions,

showing kids how to use the hand rebuses and gray areas on the sheet to guide them. You can also discuss colors: yellow for the egg, brown or green for the chrysalis, and any colors they'd like for the caterpillar and butterfly!

- **When the paint is dry**, kids can color the details, such as the leaf, branch, and caterpillar's head, with crayons.

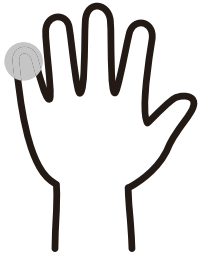

My name _____

Fingerprint Life Cycle

TEACHER NOTE: Use this sheet with the activity on page 6 of your Teacher's Guide.

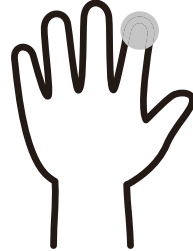

Put your fingerprints in the gray spots. Look at the  to see which fingers to use.

Use your
pinkie
to make the

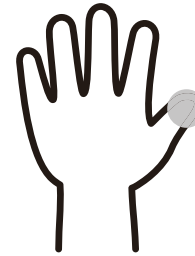

Egg

Use your
index finger
to make the

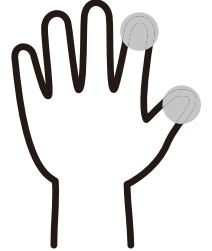

Caterpillar

Use your
thumb
to make the

Chrysalis

Use your
index finger
and thumb
to make the

Butterfly
